

NINA KASTENS - RING SIZE CHART

DETERMINE YOUR RING SIZE

The most accurate sizing is determined by measuring the inner diameter of a ring that fits you well in millimeters. You can also match the inside of that ring with one of the circles below. To make sure the scale is correct simply place a credit card at the line. If the card lines up, you're all set. When your ring has been placed on the right size, you should see only the white circle inside your ring. If your perfect fit falls between two sizes, we recommend choosing the larger size.

For special orders, please contact us via e-mail at contact@ninakastens.com. We will make sure to find solutions for sizes that are outside the specified range.
